## Regional Planning Starts Soon!

### Represent your Community on a Stakeholder Advisory Committee

---

**Plan2040, the recent update to the County's General Development Plan, outlined a regional planning process to provide more detailed guidance for development in different areas of the County.**

The Region Plans and their recommendations will align with the goals and policies of Plan2040. They will provide more opportunity for residents to participate in planning for the future of their communities.

Citizen participation is critical. County Executive Stuart Pittman said "I promised that Plan2040 would transfer power to communities, but it takes willing volunteers to move us forward. Help create your Region Plan by serving on a Stakeholder Advisory Committee."

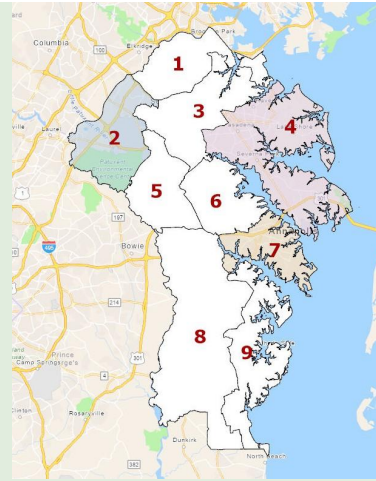

**Stakeholder Advisory Committees (SAC's) will play a key role in developing the Region Plans.**

**SAC's will meet regularly to collaborate on goals and actions for the region.** Each SAC will be made up of a diverse mix of the Region's civic, business, environmental and other stakeholders, including residents of the planning area or those who own or manage a business within the planning area.

The County Executive and County Council will work together to appoint and seat members of the committees.

The first round of Region Plans will address three areas of the County: Region 2, Region 4, and Region 7. Each plan is expected to take between 18 and 36 months to complete.

**Apply by July 18 to be on an SAC in Regions 2, 4, or 7.**

**Visit the County's Regional Plan webpage for more information about Regional Area Planning and the Stakeholder Advisory Committees.**
