Don't miss this webinar on September 13, 7:00 pm

AACC Professor Dan Nataf will review the results of his Spring 2022 survey of citizen attitudes toward growth and development in Anne Arundel County.

Anne Arundel County Residents' priorities on Growth and Development

Just a few months ago, the Center for Studies of Local Issues headed by Prof. Dan Nataf at Anne Arundel Community College released the results of its Spring Survey of perspectives of County citizens. The Center has conducted similar surveys in the fall and spring of every year since 2009 and has established a well-earned reputation for credible polling of the attitudes of a representative cross-section of County residents.

This webinar will focus on questions related to development and population growth in the County. As a result of its many amenities and desirable location between Washington and Baltimore, Anne Arundel County is likely to experience growth and development pressure for the foreseeable future. The survey results, however, suggest that the average citizen will be unsupportive of future population growth and urbanization of the County.

The webinar will have an interview format and questions from attendees may be submitted in advance to growthaction.adm@gmail.com or offered through the Q&A function at during the webinar.

Please RSVP below to register for the webinar. After registering you will receive a confirmation with information about joining the webinar.
