Anne Arundel County Executive

County Executive Candidate Video Statements on Growth and Development

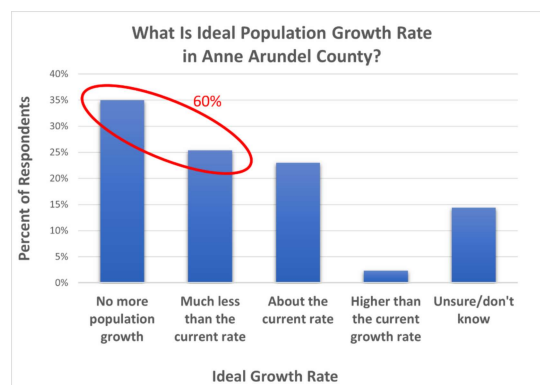

Background

Prof. Dan Nataf at Anne Arundel Community College conducts regular surveys of AA County residents to better understand their perspective on a variety of current issues. The recent Spring 2022 survey included several questions related to growth and development. One of these asked about the rate of population growth in the County. This question revealed that 60% of residents felt that slower growth or no growth would be desirable. Since this result should influence many future actions of the County government we have asked both County Executive election candidates to provide a statement about their position on growth and development in the County.

Please listen to their video statements by clicking on their photos below.

Question to Candidates

A recent survey by the Anne Arundel Community College has shown that about 60% of the residents of the County would prefer to have slower or no population growth. Please take 2 minutes to give us your position on this subject.
